Statement of Serious Damage

Women's and Girls' Wool Suits—Category 444

May 1995

The sharp and substantial increase in imports of women's and girls' wool suits, Category 444, is causing serious damage to the U.S. industry producing women's and girls' wool suits.

Category 444 imports increased to 1,125,392 units in the year ending February 1995, 7 percent above the year ending February 1994 level, and 19 percent above the level imported in calendar year 1992.

Serious damage to the domestic industry resulting from the sharp and substantial increase in imports of women's and girls' wool suits is attributed to Colombia and Philippines. The combination of high import levels, surging imports, and low priced goods from these countries have resulted in loss of domestic output, market share, employment, man-hours worked, and total annual wages.

Total imports from these two countries increased from 186,271 units in the year ending February 1994 to 207,294 units in the twelve months ending in February 1995, a sharp and substantial increase of 11 percent. Together their year ending February 1995 imports were 18.5 percent of total Category 444 imports into the U.S. during the year ending February 1995,

¹ The limit has not been adjusted to account for any imports exported after March 27, 1995.

and were 3.6 percent of total U.S. production of women's and girls' wool suits in 1994.
